What is OSCAR?

OSCAR is the Office of Student Scholarship, Creative Activities, and Research, the home of the Students as Scholars initiative, located on the second floor of Johnson Center in room 246.

Mason provides a great opportunity for students to do real research, something that matters.

Claire Collins, Biology major, URSP recipient OSCAR Fellow

OSCAR and the Students as Scholars initiative connect students with faculty and to the research and creative mission of George Mason University. We foster a culture of student scholarship through increased participation in and celebration of undergraduate research and creative activities. Since education is a process of scholarly inquiry, scholarship is valued as a core practice of the Mason student experience.

OSCAR supports students through:
» finding a project and mentor
» funding undergraduate research and creative projects
» providing student travel grants
» supporting interdisciplinary courses
» hosting the Celebration of Scholarship
» sharing information about undergraduate research opportunities
